EUROPEAN SOLAR PRIZE 2016 AWARD CEREMONY AND SYMPOSIUM

A collaboration between EUROSOLAR and Barcelona City Council

Since 1994 EUROSOLAR has recognized outstanding commitment in the field of renewable energy with the annual European Solar Prize. Ground-breaking projects and initiatives from all sectors of society are selected with the purpose of making pioneers and innovators the focus of public awareness and of giving fresh impetus to an energy turnaround that is decentralized and based on renewables.

Towards the end of each year, the award winners are invited to a celebratory event in a European city. Having previously been held in Rome and Prague, this year's edition of the European Solar Prize will be awarded in Barcelona – a city committed to sustainable energy.

Visit:

Tour of Sant Pau's energy installations (10.30 – 12.00)
Former Sant Pau Hospital – sustainable buildings and the latest advances in energy efficiency
Please register for visit. Places are limited.

English-Spanish simultaneous translation will be provided. Please find more information about the event and register for free until 9 November 2016 at www.eurosolar.de/en or www.energiasostenible.org.
